MEMORANDUM FOR: Director of Training

Rod:

- 1. I recently read the "CIA Intelligence Support for Fereign and National Security Policy Making" produced by the Center for the Study of Intelligence. I have also read Bill Colby's critique of it of 27 January 1976.
- I believe this report to be just a first-class job and I know it has provoked much constructive comment within the Agency. I favorably commented on it when I speke to the Midcareer Group on 6 February and was most pleased to be informed ______ that it is scheduled for reading and discussion by the Group.
 - 3. I have used it as a vehicle to inform Mr. Bush of the existence of the Center for the Study of Intelligence and its Board of Advisors.
